Forecast for Saturday 26 Jun 2021

Weather: overcast with occasional drizzly rain initially. Improving slowly during the morning with some brighter skies developing as well as perhaps the odd shower. Towards evening skies will clear allowing a fine sunny/ largely clear end to the day.

Chance of cloud free mountain/hill tops above 800m: <5% initially with thick cloud down to around 200m. Becoming 60% by mid-morning, with broken cloud down to around 300m, then 90% by noon, with one or two shower clouds close to the summits.

Visibility: Poor with widespread fog slowly improving during the morning to very good outside of showers by early afternoon, with fine views of distant hills.

Meteorologist's View

Poor conditions early morning making navigation difficult. Strong sunshine on Saturday afternoon so protection is advised.

Forecast for Sunday 27 Jun 2021

Weather: In the early hours, the weather will remain dry, but some low cloud could develop, covering the hill tops down to 300m or so. Any hill fog is expected to clear by 8 am to leave sunny spells and only high cloud for the rest of the day and evening. A north-easterly breeze will develop.

Maximum wind: 15 mph with gusts of 25 mph on the summits during the afternoon.

Chance of cloud free mountain/hill tops above 800m: 20% overnight improving to 80% during the morning.

Visibility: Poor with fog patches overnight improving to very good during the morning.

Temperature: **Valleys:** Plus 11 rising to 20 Celsius.
At 800m: Plus 8 rising to 15 Celsius.
Freezing level: Well above summits.
